

Index of Subjects

Volume 69, 1972

- Acid phosphatase**
 - isoenzyme, tartrate-resistant, activity in hairy cells of leukemic reticulo-endotheliosis, 471
- Acinar Cell**
 - pancreas, differentiation, autoradiographic demonstration of intracellular radioactivity with S-adenosyl-L-(C¹⁴H₃) methionine, 309
- Adenovirus**
 - type 12, undifferentiated intraperitoneal tumors induced by, 331
- Adrenal gland**
 - methylandrostenediol-induced changes, 179
- Alcoholic hyalin**
 - morphologic variants, 25
- Alport's syndrome**
 - glomerulus in, electron microscopic study, 213
- Alveolus**
 - epithelial cells in pulmonary asbestosis, phagocytic activity of, 373
- Animal Model of Human Disease**
 - Crigler-Najjar syndrome, 369
 - Kuru, Creutzfeldt-Jakob disease, 209
 - systemic lupus erythematosus, 537
- Arthritis**
 - peroxidase, immunologic inflammatory response, lymphoid cell-endothelial interactions, 7
- Autoimmune disease**
 - IgA, selective absence of, 491
- Asbestosis**
 - pulmonary, phagocytic activity of alveolar epithelial cells in, 373
- Aspergillosis**
 - visceral, experimental, 55
- Atherosclerosis**
 - intracranial, histochemical and ultrastructural study of gross fatty streak lesions, 421
- Bacteremia**
 - staphylococcal, response of protein-deficient rabbits to, 359
- Blood**
 - coagulation factor-deficient, interactions with glass, Teflon and silicone-coated surfaces, 271
 - exocytosis of secretory organelles after incubation with a cationic polypeptides, 41
- H antigen, differentiation in human transformed cell line, 389**
- platelets, uptake of latex particles by, phagocytosis or sequestration, 439**
- Brain**
 - atherosclerosis of, gross fatty streak lesions, histochemistry and ultrastructure of, 421
- Calcium**
 - mediators of isoproterenol-induced myocardial necrosis, 459
- B-cells**
 - circulating in immunodeficiency states, 513
- Chediak-Higashi syndrome**
 - lymphocytes in, giant organelles containing tubules, 225
- Cinemicroscopy**
 - phase contrast, and electron microscopy, observations of cytolysis induced by human lymphotoxin, 103
- Cirrhosis**
 - liver, alcoholic hyalin in, 25
- Coagulation**
 - disseminated intravascular colchicine-induced, 131
 - leukocyte procoagulant-induced, 407
 - factor deficient blood, ultrastructural and clotting studies, 271
- Colchicine**
 - generalized Shwartzman reaction induced in pregnant and nonpregnant rats, 131
- Colon**
 - myenteric plexus of, ultrastructural and histochemical studies, 139
- Connective tissue**
 - mast cells, histochemistry during helminth expulsion, 105
- Cortisone acetate**
 - effect on *A. flavus* spores, 55
- Creutzfeldt-Jakob disease**
 - ANIMAL MODEL OF HUMAN DISEASE, 209
- Crigler-Najjar syndrome**
 - ANIMAL MODEL OF HUMAN DISEASE, 369
- Cytolysis**
 - human lymphotoxin induced, 103

- Creutzfeldt-Jakob disease**
 - ANIMAL MODEL OF HUMAN DISEASE, 209
- Crigler-Najjar syndrome**
 - ANIMAL MODEL OF HUMAN DISEASE, 369
- Cytolysis**
 - human lymphotoxin induced, 103

Dieldrin

morphologic effects on pars recta segments of rat kidney proximal tubules, 163

Elastic tissue

identification in normal and disease states, electron microscopy, 89

Endothelium

vascular, interactions with lymphoid cells during developing immunologic inflammatory responses, 7

Farber, Sidney

recipient of Gold Headed Cane Award, March 13, 1972, 1

Fatty streak lesions

human intracranial atherosclerosis, histochemistry and ultrastructure, 421

Fungi

visceral infection with aspergillosis, 55

Glass

interaction with normal and coagulation factor deficient blood, 271

Gold Headed Cane Award

Sidney Farber, March 13, 1972, 1

Hairy Cells

leukemic reticuloendotheliosis, tartrate-resistant acid phosphatase isoenzyme activity in, 471

Heart

influenza infected turkeys, myocardial changes in, 239
methylandrostenediol-induced hypertrophy of, 179
myocardial necrosis, isoproterenol-induced, calcium as mediator of, 459

Helminthiasis

expulsion, immune reactions in mucous membranes during, 195

Hirschsprung's disease

megacolon in, 139

Hyalin

alcoholic, morphologic variants, 25

Hyalinosis

splenic arterial in health and disease, 79

Hypertension

methylandrostenediol-induced, irreversibility after androgen therapy discontinued, 179

Hypoganglionosis, 139

Immunodeficiency

B-cells, circulating in, 513

human, 484

IgA in, selective, autoimmune phenomena and disease, 491

IgE in, 499

pathogenesis and, of diseases, *Symposium*, 484-536

treatment of, 529

Immunoglobulins

A, selective absence, autoimmune phenomena and disease, 491

E, in immunodeficiency, 499

G, M, β 1C- β 1A globulin and β -lipoprotein deposition in splenic arterial hyalinosis, 79

Infection

Aspergillus flavus germinating and nongerminating spores, 55

Yersinia pseudotuberculosis, outbreak in nonhuman primates, 289

Inflammation

immunologic, lymphoid cell-endothelial interactions in peroxidase arthritis, 7

Influenza

myocardial changes in turkeys, 239

Intestines

lesions in monkeys infected with *Yersinia pseudotuberculosis*, 289
mast cells, histochemistry during helminth expulsion, 195

Isoproterenol

induced myocardial necrosis, calcium as mediator, 459

Kidney

dieldrin and methyl mercuric chloride, morphologic effects of, 163
methylandrostenediol-induced changes, 179
pyroantimonate complexes in, x-ray microanalysis, 255
xenotransplants, complement participation in hyperacute rejection, 71

Kuru

ANIMAL MODEL OF HUMAN DISEASE, 209

Leukemia

reticuloendotheliosis, hairy cells of, tartrate-resistant acid phosphatase activity of, 471

Leukocyte

emigration in peroxidase arthritis inflammation, 7

PMN, evaluation in kidney transplant rejection, 71

procoagulant, disseminated intravascular coagulation induced with, 407

Liver
alcoholic, biopsy in, 25

Lung
asbestosis, phagocytic activity of alveolar epithelial cells, 373

Lupus erythematosus
systemic, ANIMAL MODEL OF HUMAN DISEASE, 537

Lymphadenitis
mesenteric in *Yersinia pseudotuberculosis* infection, 289

Lymph node
cervical, posterior, in toxoplasmosis, 349

Lymphocytes
Chediak-Higashi, giant organelles containing tubules in, 225
emigration in peroxidase arthritis inflammation, 7

Lymphotoxin
cytolysis induced by, 103

Mast cells
intestinal and connective tissue, histochemistry during helminth expulsion, 195

Megacolon
murine, ultrastructure and histochemistry of, 139

Mercuric chloride
methyl, dieldrin and, effects in pars recta segments of kidney proximal tubules, 163

Mesenteric lymphadenitis
Yersinia pseudotuberculosis infection in monkeys, 289

Methionine
S-adenosyl-L- (C³H₅), pancreas acinar cell differentiation with, 309

Methylandrostenediol
hypertension induced by, after androgen therapy withdrawal, 179

Myocardium
changes in influenza-infected turkeys, 239
necrosis of, isoproterenol-induced, calcium as mediator, 459

Myenteric plexus
colonic, ultrastructural studies in Ls/Ls mice, 139

Pancreas
acinar cell differentiation, 309

Pars recta tubule cells
effects of dieldrin and methyl mercuric chloride, 163

Phagocytosis
activity of alveolar epithelial cells in pulmonary asbestosis, 373
sequestration or, latex particle uptake by blood platelets, 439

Phase contrast cinemicroscopy
cytolysis induced by human lymphotoxins, 103

Platelets
blood, latex particle uptake, phagocytosis or sequestration, 439
evaluation in hyperacute rejection of renal xenotransplants, 71
exocytosis of secretory organelles after incubation with cationic polypeptides, 41

Polybrene
exocytosis of secretory organelles from blood platelets incubated with, 41

Polylysine
exocytosis of secretory organelles from blood platelets incubated with, 41

Polypeptides
cationic, exocytosis of secretory organelles from blood platelets incubated with, 25

Procoagulant
leukocyte, disseminated intravascular coagulation caused by, 407

Protein deficiency
response to staphylococcal bacteremia in rabbits, 359

Pyroantimonate complexes
kidney, x-ray microanalysis of, 255

Reticuloendotheliosis
leukemic, tartrate-resistant acid phosphatase isoenzyme activity in hairy cells, 471

Shwartzman reaction
colchicine-induced in pregnant and nonpregnant rats, 131

Silicone
interaction of normal and coagulation factor deficient blood with non-biologic surfaces, 271

Spleen
hyaline deposition in arterioles and arteries, 79

Staphylococcus
bacteremia, responses of protein-deficient rabbits, 359

Symposium on Immunodeficiencies and Pathogenesis of Disease, 484-536

Teflon

coated glass, interaction with normal and coagulation-factor-deficient blood, 271

Thermal noise

spontaneous, loss of cell function due to, 119

Toxoplasmosis

posterior cervical lymph node in, 349

Tumors

intraperitoneal, adenovirus Type 12 induced, 331

Vascular

changes in peroxidase arthritis, 7

Virus

isolation and titration in influenza-infected turkeys, 239

Visceral aspergillosis

experimental, 55

Xenotransplants

renal, hyperacute rejection, complement participation in, 71

Yersinia pseudotuberculosis

infection outbreak in nonhuman primates, 289

Index of Authors

Volume 69, 1972

Albert EN: Developing elastic tissue: An electron microscopic study (October)	89
Ammann AJ: See Hong R, Ammann AJ	491
Arias IM: See Cornelius CE, Arias IM	369
Batti F: See Yokoo H, Minick OT, Batti F, Kent G	25
Bhuyan UN, Ramalingaswami V: Responses of the protein-deficient rabbit to staphylococcal bacteremia (November)	359
Biro CE: See Mejía-Laguna JE, Martínez-Palomo A, Biro CE, Chávez B, López-Soriano F, García-Cornejo M	71
Bloom S, Davis DL: Calcium as a mediator of isoproterenol-induced myocardial necrosis (December)	459
Bolande RP, Towler WF: Ultrastructural and histochemical studies of murine megacolon (October)	139
Bramson Sharon: See Kuhns WJ, Pann Charlotte, Bramson Sharon	389
